## **TCI takes the Novel Drug Delivery (NDDS) Series online**

Technology Catalysts International (TCI) is proud to announce NDDS online. NDDS online is the most up to date and comprehensive collection of information covering the drug delivery industry. TCI's information is based on personal interviews with approximately 400 drug delivery companies. New information is uploaded to NDDS online every day.

The NDDS online series covers:

- Delivery of Proteins and Peptides
- Oral Drug Delivery Systems and Materials
- Transdermal and Transmucosal Drug Delivery Systems
- Parenteral and Implant Drug Delivery Systems
- Two powerful databases:

### **Drug Delivery Pipelines:**

Allows for full text searching on compounds in development that utilize a drug delivery technology.

### **Drug Delivery Deals:**

Current and historical tracking of drug delivery deals. Specifics regarding licensing fees, upfront payments, royalties, and terms of agreement are included.

NDDS online covers technologies worldwide and includes market data, competitive intelligence, and hot topics of research in the drug delivery industry. NDDS online outlines each company's technology and includes the following specifics: *Technology Description, Applications, Technology Offer, Patents/Publications, Development Stage, Competitive Advantage, Company Information, and Contact Information.*
